Chairman Randy DeLay
Worldwide Service Project Committee
Kiwaniis International
3636 Woodview Trace
Indianapolis, IN 46268-3196

Dear Randy,

Thank you for the opportunity to present our proposals for Maternal and Neonatal Tetanus elimination and education/literacy programs in front of the Kiwanis Council. We recognize the significance of the Kiwanis Council meeting (having not convened in 15 years) and were truly honored to present our ideas and converse with the Kiwanis International and Kiwanis International Foundation board members as well as Past International Presidents.

Together, we have the opportunity to eliminate a deadly and neglected disease from the face of the earth. Building on our proven model of success in eliminating iodine deficiency disorders, with an increased emphasis on engaging Kiwanians in hands-on service both in industrialized countries and in developing countries, we look forward to sharing our plans for a global partnership that will change the course of history again.

We are ready to launch on the ground mobilization campaigns and are excited that Kiwanis will play an essential role in eliminating Maternal and Neonatal Tetanus. Through The World in Every Community™—an exciting new service project tailored for Kiwanis that will bring to life Kiwanis' commitment to the Worldwide Service Project goals—all Kiwanis Family Members will serve as leaders and issue ambassadors in their own communities.

We would like to congratulate you on your leadership and management of the Worldwide Service Project Committee and reiterate that the process has been exciting and enjoyable for us.

Sincerely,

Caryl M. Stern
